

Plastic Garden Spike Light

Important Safety Information

Please read these instructions carefully before use and retain for future reference.

- When using electrical appliances, basic safety precautions should always be followed.
- Check that the voltage indicated on the rating plate corresponds with that of the local network before connecting the appliance to the mains power supply.

Safety Information for Installation and Operation

- Avoid excessive force when installing.
- Always install on a surface that can support the weight of the fixture.

Specifications

Voltage	220–240V ~ 50Hz
IP Rating	IP44
Lamp Type	GU10 LED, Max 7W

Installation

1. Remove the screw from the top of the spike.
2. Fit the spike to the pivot frame using the screw removed previously.
3. Unscrew and remove the lens from the body.
4. Turn off or isolate the mains supply.
5. Using an IP65-rated connector housing (not supplied), connect Live to L and Neutral to N.
6. Fit a GU10 lamp (Max 7W, not supplied) and refit the lens securely.
7. Press the spike into the ground and adjust the light angle as required.
8. Restore the mains supply.

Cleaning and Maintenance

Clean only with a soft, dry cloth. Do not use chemicals, abrasives, or solvents.

WEEE Information

This product must be disposed of in accordance with local Waste Electrical & Electronic Equipment (WEEE) regulations.
